DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2 and 4-45 are allowable over the prior art of record.

It is now established that the prior art of record fails to teach or render obvious a method with all exclusive limitations as recited in claims 1, 7, 11, 16, 21, 26, 31, 38, and 41.

Specifically, absent of a statement of use and of a specific compositional ratios to establish said use, the prior art of record's element (an alcohol, a methanol, an acetic acid, and specially carboxylic), in context of an etching vapor including said element, does not constitute a surface tension lowering agent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
